Professional experience:

From 2009: Engineer in Information Technologies with Renault Trucks, with the Volvo IT section,
I have been working as s**ervice portfolio manager** of several **collaboration services**
based on *Microsoft Office SharePoint Server* technologies.

2007 and 2008: As **MOSS project manager**, I have been working on study, deployment and migration
of SharePoint solutions used within the whole group in the world.
I also have been working as **service manager** of **collaboration service** based on SharePoint.
This gives me very good technical and usage knowledge in *Microsoft Office SharePoint Server*.

2006: Engineer in Information Technologies with Renault Trucks, I have been working on conception,
deployment and management of **collaborative work services**,
as instant messaging applications, documents management and sharing information tools,
as **service manager**. This gives me product and service management knowledge.

2004 and 2005: Engineer in Information Technologies with Renault Trucks, I have been working on conception,
deployment and management of collaborative work products and intranets, as **product responsible**.
This gives me technical knowledge with MS **SharePoint**, Lotus **Quickplace**, Stellent Site Builder...

Autumn 2003: **Engineer developer** with Cap Gemini, I had been working on the **migration of the database**
of a network supervision system, using PL-SQL language and ORACLE database,
for a French telecom operator (17 weeks).

Summer 2003: **Engineer integrator** with Cap Gemini, I had been working on a *Ethernet at home*
network supervision system, and I was **responsible of the realization** and the integration
of a customer care system, using java and jsp technologies, for a Swiss telecom operator (12 weeks).

Spring 2003: Internship (17 Weeks) as **developer and integrator** with Cap Gemini,
on the implementation of a module of the *Operation Support System* of a French telecom operator.

2003: Creation of an **IRC server** developed with C/C++ during a network and programming project.

Summer 2002: Internship (11 Weeks) as **CIU** (Correspondant Informatique Utilisateur) with *Dassault-Aviation*.

2002: Creation of a **compiler** for Pascal developed with Ada during a one-month-project of programming.

2001: Creation of a **mini-OS** developed with C during a project of programming.

Summer 2001: Internship (8 Weeks) with *Wcom*.

2001: Creation of an **emulator of Intel processor** developed with C during a project of programming.

Summer 2000: Polyvalent worker in the *Jacquot* Company during 4 weeks.

2000: Gave mathematics lessons at secondary school level.

Summer 1999: Polyvalent worker in the *Jacquot* Company during 5 weeks.

1998: Gave mathematics and physics lessons at secondary school level.

Qualifications:

2000-2003: Studied in the **Telecom department of ENSIMAG-ENSERG**. Graduated in 2003.

Summer 2000: Admitted at *Concours Commun Polytechniques*.

1998-2000: A two-year university level course for entry examination to French national engineering schools.

June 1998: Scientific SR high school diploma with honors.

May 1998: Participation in *Concours Général* in Mathematic and in Industrial Technologies.

Computer skills and interests:

Programming languages Ada, C/C++, PL-SQL, HTML, PHP, XML, JAVA, JSP, Shell …

Good skills in **MS SharePoint technologies**, Lotus Quickplace, Dreamweaver, PVCS, Expresso…

Languages: Good working knowledge of **English** with daily practice and basic grounding in **German**.

Sports, especially team sports: volley-ball player (4 years) and trainer (2 years) and soccer player (10 years).

Commitment to school life: Member of the organization of the ***Forum de l'odyssée***,
member of the organization of the ***Séminaire des carrières ENSIMAG/Télécom,*** and other activities.
